**2007-**  
Kieiro PIT XS

**2008-**  
AQUA PIT Pentype

**1995-**  
AQUA PIT

**1996-**  
PIT MULTI 2

**2012**  
LONG LIFE DESIGN  
Good Design Long Life Design Award  
Three types of glue sticks won the Good Design Long Life Design Award.

**2015-**  
PIT HI-POWER S Aroma

**2021-**  
KIEIRO PIT Neon Yellow

**1997**  
The first PIT TAPE

**2000**  
PIT TAPE S

**2002-**  
PIT TAPE M

**2005**  
PIT TAPE U

**2006**  
PIT TAPE G

**2012**  
PIT SLIDE

**2013-**  
PIT-C

**2014-**  
PIT Power-D

**2017-**  
PIT Egg

**2019-**  
PIT Air

**2019-**  
PIT Air mini

**2018**  
**PiT**  
Renewal of the logo of PiT  
Japan's leading graphic designer Issen Okamoto designed the logo representing creativity and familiarity. The characteristic blue 'i' is the part cut out of the letter 'P'.

**1980**  
Tombow's first liquid glue was released in 1980!  
The birth of liquid glue in the PiT collection

The collection used to have a spray adhesive

Scented PIT series. A variety of scents including fruity and relaxing smells were added on a regular basis.

A large amount of alcohol component blended in the glue allows you to glue thin paper without wrinkles. You can also remove and paste the material again for 1-2 minutes after applying the glue!

PIT Art was renamed

The blue glue becomes colorless when it dries. It has become a popular item for its feature that the color shows where the glue is applied.

The birth of adhesive tape in the PiT collection

Shift from applying to pasting. Adhesive tape developed based on the technology used for correction tape. It has become a popular item particularly in offices for its ability to glue materials faster and more neatly than glue sticks.

Product leaflet at that time

Many patterned PiT glue sticks

## The current PiT collection

PiT has become a general brand for "pasting" including glue sticks, liquid glue, and adhesive tapes. They have been used for a wide range of purposes such as for office work, learning, and hobbies.
